DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 07/25/2008 has been entered. Claims 1, 2, and 5-10 are pending in this office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 9-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In claim 9 line 1 the feature "computer-readable medium" is not disclosed in the specification.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph due to lack of

antecedent basis. Claim 1 recites the limitation "said data base objects" in line 14.

There is insufficient antecedent basis for this limitation in the claim. Since claims 2 and 5-9 also depend on claim 1, they are also rejected.

Claim 1 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1 lines 16-19 and in claim 9 lines 11-14 the phrases "a target database object is not the same as the others among each executed data manipulation" and "a target database object is the same as others among each executed data manipulation" are indefinite. Since claims 2 and 5-8 depend on claim 1 and claim 10 depends on claim 9, they are also indefinite.

Remarks

In the "Remarks" submitted on 07/25/08, applicant did not explain how the newly added features in the amended claims overcome the prior art of record.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Carlson reference (US Publication 2005/0278316) teaches about data manipulation between first and second computer connected with a database. The Cameron reference (US Publication 2002/0174136) teaches about transaction log files.
